Did you know:

More than three quarters of all goods produced or consumed in PA are delivered by truck.

Truck drivers, local industry and local communities have identified a shortage in short term parking options for drivers in Southwestern Pennsylvania.

Drivers may need these spaces to meet federal rest requirements, to await their next pick up or delivery, or to meet personal needs.

There ways to creatively and safely meet these short term parking needs.

The FHWA Resource Team is prepared to help Southwestern Pennsylvania find solutions.

Please join us as we work to formulate a regional action plan for truck parking!

Overnight truck parking needs will also be discussed.
